## OVERVIEW

Compliance Consulting Services help you meet mandatory regulations and compliance. SecurView's Managed and Cyber Security Services are the foundation for our suite of solutions that focus on Risk Management and Compliance. SecurView addresses each phase of the life-cycle that ensures clients effectively define, deploy, and manage a self-defending network.

## COMPLIANCE CONSULTING SERVICE OVERVIEW

SecurView's Compliance Service Offerings are well integrated with our Risk Management Services. This approach helps you develop an organization-wide program to address your company's information technology compliance requirements, whether driven by regulatory, legal or privacy related concerns. Our Compliance Consulting Service experts have the domain expertise and in-depth experience to provide the necessary certifications and trainings required for mandatory and regulatory compliances.

SecurView offers a horizontal solution package for Risk Management & Policy Compliance and vertical solutions for ISO, PCI, Sarbanes-Oxley, HIPAA, BS 25999 and others. Our Risk Management solution combines SecurView's Managed and Cyber Security service offerings to help clients Assess current security posture; Identify policy gaps; Mitigate threats to infrastructure, applications and data; Manage updates and Comply with internal policies and regulatory mandates with time-defined reports. It enables clients to gain complete threat visibility, process automation and reporting transparency needed to effectively secure the enterprise and stay compliant.

## CHALLENGES
